

In a small district like ours, E-rate funding is vital. Voice reimbursement allows us to update our networks in non-eligible schools. Priority two has saved the day in those that were eligible. Internet would be practically non-existent if it were not for E-Rate funding. Those things are vital to our district. E-Rate funds many things that are not basic needs such as these. If cuts must come - please do not take away from our children's basic needs.
